ChibiPoint: Accessible Pointing for Web Applications

Alexander Birch

November 2013

Contents

1 Introduction **2**
- 1.1 Context and Motivation . . . 2
- 1.2 Literature & Technology Review . . . 2
- 1.3 Problem statement and Hypothesis . . . 2
- 1.4 Goals and Methods . . . 2
- 1.5 Results / Contributions . . . 2
- 1.6 Thesis overview . . . 2

2 Literature & Technology Review **3**

3 Requirements & Design **4**

4 Implementation **5**

5 Evaluation **6**
- 5.1 Overview . . . 6
- 5.2 Usability Study . . . 6
- 5.3 Pilot Study . . . 6
- 5.4 Study of Pointing Systems . . . 6

6 Results **7**

7 Conclusions & Future work **8**

8 Figures **9**

9 Appendices **11**

Chapter 1

Introduction

1.1 Context and Motivation

1.2 Literature & Technology Review

1.3 Problem statement and Hypothesis

1.4 Goals and Methods

1.5 Results / Contributions

1.6 Thesis overview

Chapter 2

Literature & Technology Review

Chapter 3

Requirements & Design

Chapter 4

Implementation

Chapter 5

Evaluation

5.1 Overview

5.2 Usability Study

5.3 Pilot Study

5.4 Study of Pointing Systems

Chapter 6

Results

Chapter 7

Conclusions & Future work

Chapter 8

Figures

Chapter 9
